

Welcome Fiona!

We are delighted to welcome Fiona Gill to our team as a dental nurse! Fiona brings a wealth of experience with her and is really keen to learn more about the fantastic techniques we use at Helens Bay. When not busy at work she enjoys hiking with her Husband and Labrador Retriever, Donard. It's great to have her on board!

Summer opening hours

The practice will be open throughout the summer, closing only for the August bank holiday (Monday 28th August). The diary is currently quite busy, so please contact the practice ASAP if you require any last minute appointments before your holidays - we are always here to help!

To recap on our services:

Hygiene clinics: Tuesday morning, Thursday and Friday

Gareth Small clinics: Monday-Thursday

Sarah Lochhead clinics: Monday-Wednesday and Friday

We have a smiling dentist here every day, ready to assist with any of your dental needs.

Power of Digital Smile Design

Everyone loves a before and after photo. How would you feel if we could show you your after photo before treatment even begins? This is the power of Digital Smile Design. Think of it much like an App that can change the style or colour of your hair – we can now using the leading edge in digital technology to design a brand new smile and show you the results.....all before having any treatment completed. Isn't that a nice thought? We understand that taking the leap on a dental makeover can be a difficult move and we want you to have all the tools and information available to help you decide how best to improve your smile.

Dental Practice

Digital Smile Design

Gareth recently attended a course in Prague regarding this pioneering new technology and has already been able to show some recent patients fantastic photos to enable them to envisage how their teeth might look at the end of treatment.

Digital course Prague

Have you been considering a particular treatment but were hesitant as to the results or how it might benefit your smile? Ask today about the power of Digital Smile Design!
