

## Almost-invisible Braces from Helens Bay Dental Practice

### 6 key questions about secretly straightening your teeth

---

Do you lack confidence in your smile?

Fortunately, teeth-straightening technology has moved on from the unmissable metal braces of your childhood.

Now you can choose from a variety of easy, affordable new treatments.

In the dental world we call these invisible orthodontics.

Our experienced dentists at Helens Bay Dental Practice can sort out your crooked, twisted or gappy teeth easily.

**And you don't need to wear striking metal braces for years.**

### Please answer these 6 key questions

1. Do you want to find new confidence?
2. Do you want to feel proud of your straight teeth?
3. Do you want to achieve all this without spending lots of money?
4. Do you feel okay about wearing almost-invisible braces?
5. Do you want to finish your treatment within months?
6. Would you rather be treated by some of the most experienced dentists in this field?

## Did you answer yes to all of these questions?

Then almost-invisible braces could change the way you feel about your teeth.

You don't need to feel self-conscious or embarrassed for much longer.

At Helens Bay Dental Practice, we've given straight-teeth confidence to hundreds of patients like you.

We can help choose the right treatment for you, so you can get the best possible results.

## How does it work?

The treatments fall into two main categories:

**Clear removable braces**, such as **Invisalign**, can work faster than traditional braces.

You can take them out for eating and brushing your teeth – and you can take them out for important social occasions and business meetings. But because they're clear and hard to spot, many patients don't bother.

**Cosmetic fixed braces** can also work faster than traditional fixed braces and are far less noticeable.

**Six Month Smiles**, for example, use clear brackets and teeth-coloured wires.

**All these treatments are almost invisible - most people won't even notice you're wearing them – and you can have great-looking teeth in months.**

## Why Helens Bay Dental Practice?

You could become one of our many patients who've thanked us for giving them new confidence.

They say they no longer cover their mouths for photographs or when they laugh. Instead they now show off their smiles.

## Happy patients

Our skilled dentists have practised for a combined total of 40 years.

Many of our happy patients have been with Helens Bay Dental Practice for years.

We know what your treatment means to you. You're in safe hands.

Our dentists will tell you that properly-positioned teeth make for healthier teeth and gums. It means your teeth are easier to clean. So there's less chance of plaque retention, tooth decay and gum disease.

## Money well spent

We can help you to feel good about your teeth with almost-invisible braces.

And they're becoming more affordable.
